

# Jesse Trammell

Front End/Backend Developer

## About Me

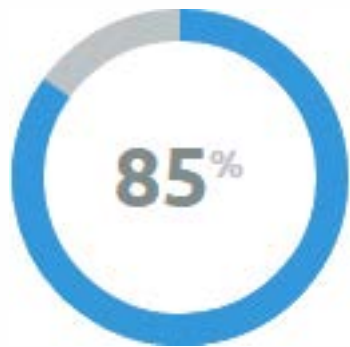

**Name** Jesse Trammell  
**E-Mail** jesse.trammell@gmail.com  
**Telephone** (803)760-8135  
**Address** Miami, FL  
**LinkedIn** <https://www.linkedin.com/in/jesstrammell>

Experienced Web Developer with nine years of PHP programming experience and over a decade in the IT industry, all without a single professional photo. Dedicated to maximizing productivity, minimizing downtime and quickly responding to the changing needs of business. Capable of being both a front end (CSS3/jQuery) and backend developer. A huge proponent for Agile/Scrum methodologies and all around problem solver.

## Skills

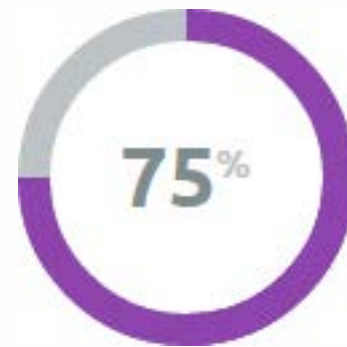

PHP

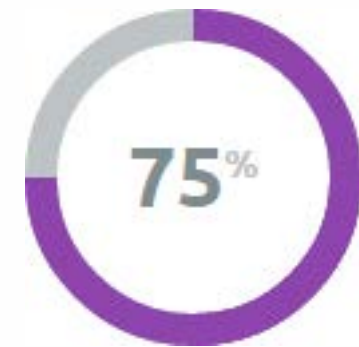

WordPress

Magento

## Experience

### Freelance Web Developer/Misc. Projects

2011 - Present

- Worked with various SEO/Marketing firms as a freelance web developer.
- Roles primarily revolved around coming up with solutions to client issues with current websites as well as working with designers to create new sites.
- Nominated and won 3 Addy Awards for development projects, one of which is now submitted to the AAF Nationals.
- Extensive use of Slack for project coordination.
- Harvest Time Tracking software
- Worked with GIT repositories
- YouTrack Project Management software

### Capital Software

2012 - 2015

#### Company Role: Web Developer

- Worked closely in a team of 6 developers.
- All projects used Agile/Scrum Methodology.
- Worked closely with our biggest client (Terminix) on implementing new intranet programs.
- Created several webservices to interface the website to a mainframe(AS400)
- Created webservices to interface iPadd apps with a mainframe(AS400)
- Used my experience in SEO to lead the search for a new SEO/Marketing company for our clients.
- Harvest Time Tracking software
- Youtrack Project Management software.
- Mercurial/SVN repositories.
- Managed a client base of roughly 15 clients

### Collective Clicks

2011 - 2012

#### Company Role: Web Developer/SEO

- Migrated our biggest client from a .net based ERP to Magento.
- Built a new Magento multisite install from the ground up
- Implemented a custom import process (PHP) that converted multiple vendor inventories with different fields into a single, Magento friendly format.
- Acted as the network/sysadmin for an unmanaged dedicated server.
- Basecamp Project Management software
- CSV repositories
- Managed 4 Magento Stores (3 in a multistore setup) and 30 WordPress Blogs.

### Florida Properties

2010 - 2011

#### Company Role: SEO/Web Developer

- Developed new websites and branding materials to reignite a local real estate company's marketing efforts.
- Integrated the local MLS listings into the site.
- De facto IT guy

### Brivin Corp

2010

#### Company Role: Marketing Manager/Social Media Strategist

- Managed a 7 member Marketing/Social Media team.
- Managed the social media strategies for several properties owned by the company.
- Implemented Agile Methodologies (Daily Standups, parking lots, sprints and reviews.
- Transitioned the company away from questionable SEO Practices
